## TECHCOOL PACKGEL COOLING VEST

Techcool Gel Ice Pack Cooling Vest use 4 pc gel ice cooling packs to insert the vest, which cools down body temperature. Making easy to work outdoors during high temperature season.

### Features:

Just put the ice pack in the fridge around 2 hours before use. Cooling time is around 4-6 hours.

## **TECHCOOL EVAPORATIVE COOLING VEST**

Techcool Evaporative Cooling Vest use a super water absorbent cooling fabric to cool down our body in hot summer, defeat the heat stress, designed for sports athletes/workers.

### **Features:**

Easy to use, just soak in water 1-2 minutes to activate its cooling function. Can cool 5-10 hours per soaking. Water-proof inner fabric can keep our body dry.

## **FLAME RETARDANT CURTAINS**

We have variety of FR curtain materials giving you to choose the curtain colour, pattern, size etc. Our in house workshop enables us to provide complete customised products to meet your requirements.

## SPARES

All genuine spares of all leading brands available with best lead time and price.

# OIL AND GAS APPROVED COVERALLS / PPE

High-quality, Oil & Gas-approved PPE designed for safety and durability.

# ENHANCING SAFETY AT SEA:

## The Importance of IMO Safety Stickers & Posters

In the maritime industry, safety isn't just a regulation — it's a culture. Every vessel, from cargo ships to offshore platforms, must communicate safety information clearly and effectively to protect crew and operations. That's where IMO Safety Stickers and Posters play a vital role.

At Ocean Offshore, we supply a full range of IMO-compliant safety signs, labels, and posters designed according to the latest International Maritime Organization (IMO) and SOLAS regulations. These stickers and posters are essential for:

### Emergency Preparedness:

1

Clearly marking muster stations, fire equipment, escape routes, and lifeboat areas ensures rapid response during emergencies.

### Crew Awareness

2

Informative safety posters promote daily reminders of best practices and emergency procedures on board.

### Regulatory Compliance

3

Meeting IMO standards helps vessels pass inspections and maintain certification effortlessly.

### Durability & Visibility

4

Our materials are UV-resistant, waterproof, and photoluminescent — ensuring visibility even in low-light or smoky conditions.

We understand that cost matters — that's why we provide IMO Safety Stickers and Posters at highly competitive prices, ensuring you get the best quality with the best value in the market.

From Fire Control Plans to Life-Saving Appliance (LSA) signage, our IMO safety solutions help shipowners and operators maintain the highest standards of onboard safety.

Safety starts with awareness — and awareness starts with clear communication.

Contact our team today to learn more or request a quotation — we'll gladly match or beat competitor prices.

# SALES & SERVICE FOR LIFERAFTS & LIFEJACKETS

We have comprehensive Service station available for Sales & Service of Liferrafts & Lifejackets.
